Superpro trans700

Trans 700 is specifically wired for On-Board Power Systems found on various Transportation such as Aircraft, Ships, Trains etc. (where power supply is 120V/400Hz).

Pacvac prides itself on ensuring all products are produced to comply with the highest health and safety regulations. The Trans 700 is manufactured in full compliance with Australian Electrical Standard AS/NZS 60335-2-69:2003 +A1. Also meets Australian Filtration Standard AS/NZ 3733:1995 Clause 4.3.2.

The Trans 700 is also accepted by the Carpet Rug Institute, Chiropractors' Association of Australia, Health and Safety Matters Pty Ltd and many other Occupational Health and Safety organisations. For further information on our accreditations please refer to our website at www.pacvac.com

Features:

- American Ametek 950 Watt 2 stage Flow-through motor.
- Hypercone™ Activeair filtration maintains airflow from the top down to provide continuous airflow – the motor runs cooler and lasts longer. The Hypercone™ lasts over 200 hours depending on duty cycles.
- Ergonomically Designed Frame - new extended 'body-moulded' frame for increased comfort and anatomically correct posture – a critical OH & S factor.
- Adjustable Harness - thicker, padded and fully adjustable to fit all body types.
- Clear Dome Lid – the offset inlet creates cyclonic airflow for stronger, more consistent airflow – more vacuuming power.

- Double Looped Cord Restraint - prevents accidental disconnection of power cord.
- Two Piece Wand and combination Gulper floor tool as standard.
- On-machine Safety and Maintenance labelling.
- Graphics based Product Manual.

Free:

- Crevice tool, dusting brush and upholstery tool.
- Extra cloth dust bag.
- Packet of 5 paper bags.

Productivity Booster Kit

Well trained cleaners are more productive, healthier cleaners. Our Productivity Booster Kit has high OH & S compliance and enables the cleaning of up to 700 square metres per hour - resulting in a tidy profit.

The Kit includes:

- Training and maintenance DVD.
- Training Resources Pack.
- A3 Safety and Maintenance Poster.

Available FREE on request (conditions may apply).

Superpro trans700 Specification:

Rated Power: 950W + 200W power outlet
Voltage: 120 Volts, 400 Hz
Motor Type: Flow-through
Vacuum Pressure: -18kPa
Airflow Volume: 29.86 Litres per second

Noise level: 74dBa
Filtration: 3 stage, 99.99% efficiency at 0.3 micron
Tank Capacity: 5 litres or 8.8 pints
Weight: 5.0kgs or 11.0lbs (excluding power cord & hose)
Warranty: 2 years on body, 12 months on motor.
